Request for Proposal

Solicitation Number: GM3904

Due Date: 04/08/03

Vendor Name:

THE STATE OF UTAH IS SOLICITING THIS REQUEST FOR PROPOSALS (RFP) TO PERFORM COMPREHENSIVE COMPUTER HARDWARE AND PERIPHERAL MAINTENANCE FOR EQUIPMENT WHEREIN THE MANUFACTURER WARRANTY OR MAINTENANCE PERIOD HAS OR WILL BE EXPIRING.

A COPY OF THIS RFP MAY BE OBTAINED FROM THE STATE OF UTAH PURCHASING WEBSITE AT: www.purchasing.utah.gov. LOOK FOR THE LINK TITLED 'CURRENT BIDS'. SCROLL TO SOLICITATION NUMBER GM3904 AND LOOK FOR THE PDF FILE. A COPY OF THE RFP CAN BE PRINTED FROM THIS SITE.

AWARD OF THIS CONTRACT(S) WILL RESULT IN A THREE (3) YEAR CONTRACT PERIOD. THE CONTRACT(S) MAY BE RENEWED ON A MONTH TO MONTH OR YEAR BY YEAR BASIS FOR A MAXIMUM CONTRACT PERIOD OF FIVE (5) YEARS.

TECHNICAL QUESTIONS SHOULD BE DIRECTED IN WRITING TO TED WALLACE VIA EMAIL AT tedwallace@utah.gov OR FAX TO (801) 538-3622. WRITTEN QUESTIONS ARE DUE PRIOR TO THE CLOSE OF BUSINESS ON MARCH 26, 2003. QUESTIONS RELATIVE TO THE PROCUREMENT PROCESS SHOULD BE DIRECTED TO THE PURCHASING AGENT, GLENDON MITCHELL, AT 801-538-3138.

REFERENCE RX: 100 39000000049

REQUEST FOR PROPOSAL - INSTRUCTIONS AND GENERAL PROVISIONS

1. PROPOSAL PREPARATION: (a) All prices and notations must be in ink or typewritten. (b) Price each item separately. Unit price shall be shown and a total price shall be entered for each item bid. (c) Unit price will govern, if there is an error in the extension. (d) Delivery time of services and products as proposed is critical and must be adhered to. (e) All products are to be of new, unused condition, unless otherwise requested in this solicitation. (f) Incomplete proposals may be rejected. (g) This proposal may not be withdrawn for a period of 60 days from the due date. (h) Where applicable, all proposals must include complete manufacturer's descriptive literature. (i) By signing the proposal the offeror certifies that all of the information provided is accurate, that they are willing and able to furnish the item(s) specified, and that prices offered are correct.

2. SUBMITTING THE PROPOSAL: (a) The proposal must be signed in ink, sealed, and if mailed, mailed in a properly-addressed envelope to the DIVISION OF PURCHASING, 3150 State Office Building, Capitol Hill, Salt Lake City, UT 84114-1061. **The "Solicitation Number" and "Due Date" must appear on the outside of the envelope.** (b) Proposals, modifications, or corrections received after the closing time on the "Due Date" will be considered late and handled in accordance with the Utah Procurement Rules, section 3-209. (c) **Your proposal will be considered only if it is submitted on the forms provided by the state. Facsimile**

transmission of proposals to DIVISION will not be considered. (d) All prices quoted must be both F.O.B. Origin per paragraph 1.(c) and F.O.B. Destination. Additional charges including but not limited to delivery, drayage, express, parcel post, packing, cartage, insurance, license fees, permits, costs of bonds, or for any other purpose must be included in the proposal for consideration and approval by the Division of Purchasing & General Services (DIVISION). Upon award of the contract, the shipping terms will be F.O.B. Destination, Freight Prepaid with freight charges to be added to the invoice unless otherwise specified by the DIVISION. No charge for delivery, drayage, express, parcel post, packing, cartage, insurance, license fees, permits, costs of bonds, or for any other purpose will be paid by the state unless specifically included in the proposal and accepted by DIVISION. (e) By signing the proposal the offeror certifies that all of the information provided is accurate and that he/she offers to furnish materials/services for purchase in strict accordance with the requirements of this proposal including all terms and conditions.

3. SOLICITATION AMENDMENTS: All changes to this solicitation will be made through written addendum only. Bidders are cautioned not to consider verbal modifications.

4. PROPRIETARY INFORMATION: Suppliers are required to mark any specific information contained in their bid which is not to be disclosed to the public or used for purposes other than the evaluation of the bid. Each request for non-disclosure must be accompanied by a specific justification explaining why the information is to be protected. Pricing and service elements of any proposal will not be considered proprietary. All material becomes the property of the state and may be returned only at the state's option. Proposals submitted may be reviewed and evaluated by any persons at the discretion of the state.

5. BEST AND FINAL OFFERS: Discussions may be conducted with offerors who submit proposals determined to be reasonably susceptible of being selected for award for the purpose of assuring full understanding of, and responsiveness to, solicitation requirements. Prior to award, these offerors may be asked to submit best and final offers. In conducting discussions, there shall be no disclosure of any information derived from proposals submitted by a competing offeror.

6. SAMPLES: Samples, brochures, etc., when required, must be furnished free of expense to the state and if not destroyed by tests may, upon request made at the time the sample is furnished, be returned at the offeror's expense.

7. DIVISION APPROVAL: Contracts written with the State of Utah, as a result of this proposal, will not be legally binding without the written approval of the Director of the DIVISION.

8. AWARD OF CONTRACT: (a) The contract will be awarded with reasonable promptness, by written notice, to the lowest responsible offeror whose proposal is determined to be the most advantageous to the state, taking into consideration price and evaluation factors set forth in the RFP. No other factors or criteria will be used in the evaluation. The contract file shall contain the basis on which the award is made. Refer to Utah Code

Annotated 65-56-21. (b) The DIVISION can reject any and all proposals. And it can waive any informality, or technicality in any proposal received, if the DIVISION believes it would serve the best interests of the state. (c)

Before, or after, the award of a contract the DIVISION has the right to inspect the offeror's premises and all business records to determine the offeror's ability to meet contract requirements. (d) The DIVISION will open proposals publicly, identifying only the names of the offerors. Proposals and modifications shall be time stamped upon receipt and held in a secure place until the due date. After the due date, a **register** of proposals shall be established. The **register** shall be open to public inspection, but the proposals will be seen only by authorized DIVISION staff and those selected by DIVISION to evaluate the proposals. **The proposal(s) of the successful offeror(s) shall be open for public inspection for 90 days after the award of the contract(s).** (e) Utah has a reciprocal preference law which will be applied against bidders bidding products or services produced in states which discriminate against Utah products. For details see Section 63-56 20.5 -20.6, Utah Code Annotated.

9. ANTI-DISCRIMINATION ACT: The offeror agrees to abide by the provisions of the Utah Anti-discrimination Act, Title 34 Chapter 35, U.C.A. 1953, as amended, and Title VI and Title VII of the Civil Rights Act of 1964 (42 USC 2000e), which prohibit discrimination against any employee or applicant for employment, or any applicant or recipient of services, on the basis of race, religion, color, or national origin; and further agrees to abide by Executive Order No. 11246, as amended, which prohibits discrimination on the basis of sex; 45 CFR 90 which prohibits discrimination on the basis of age, and Section 504 of the Rehabilitation Act of 1973 or the Americans with Disabilities Act of 1990, which prohibits discrimination on the basis of disabilities. Also offeror agrees to abide by Utah's Executive Order, dated March 17, 1993, which prohibits sexual harassment in the workplace. Vendor must include this provision in every subcontract or purchase order relating to purchases by the State of Utah to insure that the subcontractors and vendors are bound by this provision.

10. WARRANTY: The contractor agrees to warrant and assume responsibility for all products (including hardware, firmware, and/or software products) that it licenses, contracts, or sells to the State of Utah under this contract for a period of one year, unless otherwise specified and mutually agreed upon elsewhere in this contract. The contractor (seller) acknowledges that all warranties granted to the buyer by the Uniform Commercial Code of the State of Utah applies to this contract. Product liability disclaimers and/or warranty disclaimers from the seller are not applicable to this contract unless otherwise specified and mutually agreed upon elsewhere in this contract. In general, the contractor warrants that: (1) the product will do what the salesperson said it would do, (2) the product will live up to all specific claims that the manufacturer makes in their advertisements, (3) the product will be suitable for the ordinary purposes for which such product is used, (4) the product will be suitable for any special purposes that the State has relied on the contractor's skill or judgement to consider when it advised the State about the product, (5) the product has been properly designed and manufactured, and (6) the product is free of significant defects or unusual problems about which the State has not been warned. Remedies available to the State include the following: The contractor will repair or replace (at no charge to the State) the product whose nonconformance is discovered and made known to the contractor in writing. If the repaired and/or replaced product proves to be inadequate, or fails of its essential purpose, the contractor will refund the full amount of any payments that have been made. Nothing in this warranty will be construed to limit any rights or remedies the State of Utah may otherwise have under this contract.

11. DEBARMENT: The CONTRACTOR certifies that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction (contract) by any governmental department or agency. If the CONTRACTOR cannot certify this statement, attach a written explanation for review by the STATE.

12. GOVERNING LAWS AND REGULATIONS: All State purchases are subject to the Utah Procurement Code, Title 63, Chapter 56 Utah Code Annotated 1953, as amended, and the Procurement Rules as adopted by the Utah State Procurement Policy Board (Utah Administrative Code Section R33). These are available on the Internet at www.purchasing.utah.gov.

Section 1. Project Intent

1.1 Introduction

This Request for Proposal (RFP) is issued by the State of Utah (State), Division of Purchasing, for the Department of Administrative Services (DAS), Division of Information Technology Services (ITS). It is intended to provide the State with comprehensive computer hardware maintenance contract(s) for the types of equipment shown in CHECKLIST 2 – EQUIPMENT LIST that will keep costs low and service level high. The State will have on-site maintenance service contract(s) with the additional option of depot services.

1.2 Objective

The specific objectives are:

- ❖ Present, in a concise manner, the overall hardware maintenance requirements for State agencies.
- ❖ Provide a vehicle for seeking competitive proposals and initiate a hardware maintenance contract(s).
- ❖ Award the contract(s) to provide the most economical pricing for the agencies without sacrificing excellence in support and customer service from the Supplier.

This RFP provides interested Suppliers with information necessary to prepare and submit proposals for consideration by the State. The State intends that evaluation of the Supplier proposals will result in the selection of one or more Suppliers that will best meet the State's requirements. For ease of comparison, Suppliers are provided with standard forms and checklists on which to submit information.

1.3 Background Information

The State of Utah (State) centrally negotiates and manages the maintenance of computer and related equipment through the Division of Information Technology Services.

The contract award(s) resulting from this RFP may include maintenance for all personal computers, minicomputers, personal and minicomputer peripherals, and mainframe peripheral equipment owned by the State and other political subdivisions or entities. This also includes terminals, printers, and other equipment and devices that are compatible with the above equipment.

Equipment is tracked and problems are reported through REMEDY, a statewide automated system, which agencies are required to use in reporting hardware maintenance problems. Currently, ITS Customer Support software electronically forwards problems to the Supplier and is also used to monitor Supplier performance, and gather statistical and administrative information relevant to equipment performance. Equipment Inventory System (EIS) is the primary tool used by ITS to manage equipment maintenance.

The equipment listed in this RFP (CHECKLIST 2 – EQUIPMENT LIST) was obtained from the State's EIS. The equipment listed includes all equipment currently in the inventory. This equipment may be covered by monthly maintenance, or time and materials (T/M). The equipment list is not static. Many models and/or devices may be deleted and others added prior to any contract award and throughout any subsequent contract period.

1.4 Scope of Contract

This is a statewide contract. It is the intent to obtain statewide services for computer hardware maintenance. Suppliers must have with the ability to cover the entire State and all equipment on Checklist 2. The State reserves the right to partition the award to multiple vendors, to selectively purchase items offered in response to this Request for Proposal, or to seek a separate competitive bid or proposal, if it is in the best interest of the State to do so.

Since the majority of the equipment is located within the Wasatch Front, it is preferable for the State to have on-site monthly maintenance costs quoted for each piece of equipment regardless of its location. The Wasatch Front is defined as the fifty-mile radius around Salt Lake City, including Willard to the north, Kamas to the east, Grantsville to the west and Spanish Fork to the south. The only difference in the level of service provided due to location will be the tolerable downtime. We understand that laptops and monitors may require repair off site, if that should occur Supplier should refer to the section 4.2 on loaner equipment.

The scope of this RFP is computer hardware maintenance only. Requests for modifications (such as upgrades or consumable item installations) from the user or agency, resulting from equipment service requests, may be performed at the discretion of both parties. Modification requests not resulting from equipment service requests (swaps, upgrades, installation of new equipment, etc.) are not covered under this contract. Software problems, boot disks, virus eradication, warranty service, etc. are not covered under this contract. However, the Supplier may choose to assist customer with the resolution of problems. In the event that a winning Supplier is able to provide warranty service, it may be efficient to use this vehicle to manage the warranty calls.

Appendix A – Map of Utah Counties contains a map of the State of Utah showing the 29 counties within the State. The map is for information purposes only.

Section 2. Administrative Information

2.1 Issuing Office

This RFP shall be governed by the laws of the State of Utah and is issued for the State by the Department of Administrative Services, Division of Purchasing for the Division of Information Technology Services.

Division of Purchasing

Address: State Office Building, Room 3150
Salt Lake City, Utah 84114
Purchasing Officer: Glendon Mitchell
Telephone: (801) 538-3138
Fax: (801) 538-3882

Division of Information Technology Services

Address: State Office Building, Room 6000
Salt Lake City, Utah 84114
Project Manager: Ted Wallace
Email Address: tedwallace@utah.gov

The Project Manager and Purchasing Officers are the sole points of contact for purposes of this RFP.

2.2 Schedule of Events

Proposal Due Date is located on the RFP Cover Sheet

2.3 Questions on RFP

Suppliers who have questions or concerns about the requirements of the RFP are requested to submit them in writing to the project manager prior to close of business on March 26, 2003. The State will respond to such inquiries or concerns in writing and, if warranted, amend the RFP. Responses to questions asked that change or substantially clarify this RFP will be affirmed by written addenda and provided to all recipients of this RFP. The proposal due date and time may be extended by the Division of Purchasing if responses to questions or addenda so require.

2.4 Evaluation Committee

The evaluation committee is comprised of a team of information technology and/or purchasing professionals selected from the Department of Administrative Services and other departments of State government. This committee is responsible for evaluation of all proposals received as a result of this RFP and recommending subsequent award(s).

2.5 Rejection of Proposals

The State reserves the right to reject any and all proposals received as a result of this RFP, to waive informalities and minor irregularities in proposals received, or to negotiate separately with any source whatsoever in any manner necessary to serve the best interests of the State.

2.6 Incurring Costs

The State is not liable for any costs incurred by Suppliers prior to the issuance of any agreements, contracts, or purchase orders, and will not pay for information solicited or obtained in response to this RFP. The information obtained will be utilized in determining the suitability of services offered. Subsequent procurement, if any, will be in accordance with appropriate State contractual action.

2.7 Submission of Proposals

To be considered for selection, Suppliers must submit a complete response to this RFP, using the format provided. Proposals must be received by the Division of Purchasing no later than the proposal due date and time shown on the RFP Cover Sheet. An original and three (3) copies of each proposal are to be submitted. Proposals must be submitted in sealed packages or envelopes and marked with the RFP solicitation number, due date, and time clearly on the outside. If responses to inquiries or the addendum so require, the response date will be extended by the Division of Purchasing.

2.8 Alternate Proposals

A Supplier may submit more than one proposal. Each proposal must be complete and must comply with all of the instructions of this RFP.

2.9 Disposition of Proposals

All materials submitted in response to this RFP will become the property of the State and may be returned only at the State's option and the Supplier's expense.

2.10 Disclosure

All proposal information being evaluated, including costs will be public information and Supplier gives the STATE express permission to make copies of the response to this RFP when requested, in accordance with the State of Utah Government Records Access and Management Act (GRAMA). The permission to make copies as noted will take precedence over any statements of confidentiality, proprietary information or copyright information etc. Proposals submitted to the State will be reviewed and evaluated only by those officials who have a legitimate interest. Proposal information that is considered by the Supplier to be proprietary should be identified as such; otherwise, the State reserves the right to use any or all ideas presented in any reply to the RFP. Selection or rejection

of the proposal does not affect this right. The public will have the right to review the winning proposal(s) for 90 days afterward.

2.11 Economy of Proposals

Proposals should be prepared simply and economically, providing a straightforward, concise description of Supplier's capability to satisfy the requirements of this RFP. Special bindings, colored displays, promotional materials, etc., are not required. Emphasis should be on completeness and clarity of content. The response must comply with the directions stated in Section 5 of the RFP to be evaluated by the committee.

2.12 Opening of Proposals

Proposals received in response to this RFP will be opened at the Division of Purchasing on the proposal due date and time identified on the RFP Cover Sheet. Suppliers who wish to be present will be informed of only the names of the Supplier(s) submitting proposals. No other information will be made available at that time.

2.13 Oral Presentation

Suppliers may be required to make an oral presentation of their proposal, at the request of the State. Such presentations provide an opportunity for Suppliers to clarify their proposals to ensure thorough and mutual understanding. Oral presentations are by invitation only. The top ten highest scored or less will be allowed to make an oral presentation.

2.14 Contract Period

The contract shall begin upon the approval of the appropriate State authority and be in place for three (3) years with the option to renew on a month-to-month or one-year basis at the State's discretion and as negotiated. The contract life shall be a maximum of five (5) years. The contract will be awarded prior to July 1, 2003 and the winning supplier must be ready to accept all problem calls beginning July 1, 2003. In the event ITS has technical difficulties the start date may be negotiated.

2.15 News Releases

News Releases related to this RFP will not be made without the prior consent of the State, and then only in coordination with the Division of Purchasing .

2.16 RFP Available Electronically

Suppliers may receive an electronic copy of this RFP by submitting a request to Kelley Mills at: klmills@utah.gov. **In case of a conflict between the written document and the electronic document, the written document prevails.**

Section 3. Mandatory Terms and Conditions

The terms and conditions set forth below are intended to inform the Supplier of the standards currently in use, which govern computer hardware maintenance, and to set the standard by which new Suppliers can most easily conform and interface with the State's system and procedures.

Suppliers must complete CHECKLIST 1 – MANDATORY TERMS AND CONDITIONS. These should be viewed as a gate through which a proposal must pass prior to further evaluation. A “no” response must include justification for not agreeing to the specified term and/or condition. The checklist format must be followed exactly with any necessary justification placed directly behind the checklist to be considered responsive. Complete disagreement (and failure to provide documentation) will result in the proposal being deemed “unacceptable” and eliminated from further consideration. Any justification included will be reviewed. The committee will determine whether to accept said justification and pass the proposal or to deem the proposal unacceptable and no further evaluation would occur.

3.1 Standard Terms and Conditions

The State of Utah Standard Terms and Conditions is part of the RFP Cover Sheet. Supplier has read and agreed with each section and indicated in writing any disagreement or clarification. Suppliers must provide a copy of their standard terms and conditions for the State's review.

3.1.1. Vendor Terms and Conditions

Inclusion of supplier terms and conditions does not constitute acceptance by the State.

3.2 Renegotiations or Modifications

3.2.1 Contract Amendments

This contract may be amended or modified only by written amendment to the contract, executed by the parties hereto, and attached to the original signed copy of this contract. This does not include requests from the State for additional equipment to be added to the contract as a result of changing technology or State ideology. No claim for services furnished by the Supplier, not specifically authorized by this contract, will be allowed by the State.

3.2.2 Service and Price

Service must remain constant throughout the contract period; the Supplier agrees to provide maintenance services on equipment awarded by this contract beginning at its inception and for the remainder of the contract period. Supplier cannot discontinue maintenance service due to the equipment's age, operating characteristics, or increasing costs to the Supplier. Supplier agrees to hold pricing constant throughout the first year of the contract period and may request a review

of contract pricing on an annual basis thereafter. The State will in good faith negotiate all requests for price increases; such price increases not to exceed 5% per year. Supplier agrees that pricing on new equipment added to the contract shall not exceed pricing of existing comparable equipment by more than 5%. Service and prices shall continue as outlined in the contract. State Purchasing guidelines will be followed for any modifications. When original equipment cannot be repaired, Supplier may, at their expense, recommend a replacement with a different brand or model (equivalent or better). This may be negotiated and accepted or rejected by the Agency owning the equipment.

3.3 Termination

The State reserves the right to terminate the contract awarded as a result of this RFP upon (30) days written notification to the Supplier to include but not be limited to: (1) when new procedures or policies indicate the State's interest will be served by implementing new technologies or adopting state-of-the-art functions; (2) when funds are not appropriated or otherwise available to continue the payment; or (3) for unauthorized substitution of parts, excessive delays in response time and/or downtime, poor workmanship, or failure to perform as outlined in this RFP. The State reserves the right to cancel this contract without cause upon 60 days written notice.

Supplier may terminate this contract, with or without cause, in advance of the specified expiration date, upon ninety (90) days prior written notification being provided to the State.

Upon termination of this contract all accounts and payments will be processed according to financial arrangement set forth herein for services rendered to date of termination.

3.4 Quantity or Amount Estimates

The State does not guarantee that there will be an award on all of the equipment in CHECKLIST 2 – EQUIPMENT LIST. The list of equipment is based on the State's inventory in EIS and includes devices with full maintenance coverage and Time and Materials (T/M). The quantities specified are for proposing purposes only, and are not to be construed as a guarantee to purchase any amount or service. The equipment list is not static, some models may be deleted and others added prior to any contract award(s) and throughout any subsequent contract period.

3.5 Assignment

Supplier agrees that it shall not assign, sell transfer or sublet its rights, or delegate its responsibilities under this contract, in whole or in part. This RFP does not allow subcontracting of this contract.

3.6 Problem Reporting and Problem Tracking

All service calls will be logged into the State's system by State agencies or by ITS Customer Support and will be forwarded with the appropriate information to the Supplier. This notification may be electronic or via telephone.

In order for a State agency or political subdivision of the State to use the services under this contract, the equipment must be included in EIS and placed through a system designated by ITS. Supplier awarded this contract must not accept service calls unless dispatched appropriately by ITS. Supplier must have personnel on site during the principle period of maintenance to receive calls.

3.6.1 Service During Principle Period of Maintenance (PPM)

(8:00 a.m. to 5:00 p.m., Monday through Friday)

The State will, unless it is not cost effective or our current practice changes, place a terminal on Supplier's premises so that Supplier can electronically receive notification of service calls during the PPM. The Supplier will resolve the problem and electronically close the calls as the work is completed.

The State agrees to pay the associated costs of the local connection, initial installation of circuitry, and monthly fees. Should Supplier choose to have the terminal installed outside the local toll area, the Supplier will pay the associated costs of the long distance connection to include initial installation of circuitry and monthly line charges. Should Supplier choose to relocate the terminal after initial installation all costs associated will be borne by Supplier. A service request must be placed through the ITS Customer Support, the appropriate personnel will relocate device, and Supplier will be billed directly.

The State agrees to accept responsibility for monthly costs associated with maintaining the State owned device. State owned equipment would be maintained by the Supplier awarded the appropriate contract. Supplier must allow a representative of a State authorized maintenance organization access to the Supplier's facilities to provide maintenance. However, if a Supplier has qualified personnel to maintain the device and they prefer to do so, the Supplier then must notify appropriate ITS personnel of that preference at the time of the contract award. The Supplier will then accept responsibility for the maintenance of that device at no cost to the State. The device will remain the property of the State.

When placing a terminal on the Supplier's premises is not cost effective for the State, service calls will be placed as outlined in 3.7.2. Supplier agrees to notify the ITS Customer Support at (801) 538-3440 of the steps taken to resolve the problem upon closing the call.

3.6.2 Service Outside PPM

Service calls made outside the PPM will be dispatched by the State to the Supplier's designated after-hours (toll free) telephone number. Recording devices

are acceptable if Supplier's certified personnel can be notified and respond within the 30-minute callback period.

3.7 Monthly List of Equipment and Coverage

The State agrees to provide the Supplier with a list of equipment to be covered by monthly maintenance. The list will be sent to the Supplier the first week of each month. This list includes brand of equipment, serial number, model number, description, approximate location, contact person, type of coverage and maintenance charge. Devices added to EIS after the billing date will not appear on the list of equipment. These devices will be dispatched on a T/M basis until the next billing date when they will appear on the list of equipment. The T/M charge must be sent directly to the State agency that owns the equipment and at the rates quoted in the Supplier's proposal for T/M.

Equipment must be added to EIS before a problem can be dispatched. The Supplier will notify appropriate ITS personnel of any discrepancies between the monthly equipment list and the equipment located in a State agency. The purpose of this requirement is to keep the inventory system information accurate. Therefore, Supplier agrees to notify the agency and appropriate ITS personnel when any agency devices are exchanged.

3.8 Equipment Deletions and Additions

The State agrees to notify Supplier when adding equipment to or deleting equipment from monthly maintenance coverage. Notice for deletions will be given thirty (30) days in advance and identified as such on the monthly list. No notice will be given for additions other than notation on the monthly list.

Equipment without current maintenance coverage or warranty may require a certification call to verify the equipment is eligible for OEM maintenance and all equipment is at the current OEM revision level. Supplier has from the receipt of the initial billing notification to the following billing (approximately thirty (30) days) to complete the certification. If Supplier does not take advantage of their right to do a certification call at that time, all rights to perform such certification are eliminated and device is deemed maintainable.

When maintenance coverage is requested for equipment, which does not meet OEM standards, Supplier may repair the equipment and charge the State agency T/M rate quoted in the Supplier's proposal, or a prorated amount of the monthly maintenance charge.

All charges must be approved in advance by an authorized agency representative. The certification call, or lack thereof, acknowledges the Supplier's willingness to cover the equipment under monthly maintenance.

3.9 Billing and Payment

3.9.1 Monthly Maintenance Charges

Payment for maintenance service under this contract will be pre-paid (excluding T/M). On the first of each month ITS will calculate the payment to the Supplier based on the equipment included in the monthly list of equipment. Supplier should receive payment no later than the 7th of each month. Supplier agrees that it will not invoice the State for monthly maintenance charges and no other payment will be made for monthly maintenance charges by the State.

3.9.2 Authorized Repair

If Supplier is on site repairing a device and the agency requests service on additional equipment, the Supplier must be authorized to repair the additional equipment. It is the Supplier's responsibility to make certain the request has been submitted to the ITS Customer Support. Supplier accepts full responsibility for all repair costs if a device is serviced and not submitted through the ITS Customer Support or the Supplier is not the selected maintainer.

3.10 No-Trouble-Found Calls

Supplier agrees that there will be no charge for the first two (2) no-trouble found calls annually on each device covered under monthly maintenance (does not apply to T/M). A no-trouble-found call exists when the Supplier's on-site inspection indicates no maintenance service is required and/or when the problem is caused by operator error. Intermittent service calls that result in a maintenance repair will not count against the annual two (2) no-trouble-found calls. Subsequent no-trouble-found calls may be billed directly to the agency at the time and materials rate quoted in the Suppliers proposal.

3.11 Data Entry Errors

Supplier agrees that if a mistake in data entry becomes evident, such mistake shall be corrected and any associated costs will be negotiated between Supplier and appropriate ITS personnel. Examples of mistakes in data entry include typographical errors, errors in extending unit prices, transposition errors, and arithmetical errors. Any errors that occur in the model table of EIS resulting in over or under payment to Supplier and/or over or under charge to the customer will immediately be corrected. Any modifications to payment will be made during the subsequent billing period.

3.12 Miscellaneous Responsibilities of the Supplier

3.12.1 General

Supplier shall provide all necessary maintenance labor, repair parts, maintenance supplies, tools, test equipment, hardware/software diagnostic equipment, alignment media, manufacturer licensing, transportation, and other related services at the prices submitted in Supplier's proposal and shall keep all the equipment covered under this contract in good operating condition. In addition, Supplier must ensure that all software is virus free prior to using it at any State Agency.

3.12.2 Supplier Acknowledgment

Within thirty (30) minutes of receiving a service call, Supplier will have the certified personnel contact the equipment user. The term "30-minute call-back" is used by State personnel to describe this procedure.

The purpose of the 30-minute callback is to have the user whose equipment is malfunctioning speak directly with the certified personnel responding to the call. Important information such as urgency of the call, description of the problem, location of the hardware, and facility access can be exchanged. The certified personnel must communicate to the user the estimated time of arrival on-site.

The certified personnel must have the problem description from ITS Customer Support prior to making this call to the equipment user. The appropriate ITS personnel reserves the right to monitor 30 minute callbacks.

3.12.3 Liabilities for Faulty Maintenance

Supplier shall repair or have repaired any equipment or property that was damaged by the Supplier during the maintenance procedure.

3.12.4 Time and Materials Cost Report

Supplier agrees to provide labor, travel (if applicable), and parts cost information on each call in a manner determined by ITS.

3.12.5 Acceptance of Equipment After Repair

Supplier agrees to leave a copy of the repair report with the Agency representative on site.

3.13 Qualifications of Personnel

3.13.1 Certified Personnel

All services under this contract are to be performed by competent personnel, experienced and highly qualified to provide required services in accordance with the best commercial practices, without unnecessary delays or interference with State functions.

3.13.2 Minimum Personnel Requirements

Two (2) years experience is the minimum that will qualify a person to perform the required services under this contract. Supplier's employees working on this contract must have at least one (1) year experience maintaining the equipment covered under this contract and at least one (1) additional year experience maintaining similar equipment, with the exception of new technology introduced after contract inception. Personnel working under this contract must be trained on the specific equipment (make and model number) to be maintained. Any maintenance service performed by trainees shall be under the direct supervision of experienced personnel. In no case shall the State be obligated to pay for trainee cost(s).

3.14 Charges

Charges shall not exceed the rates provided in Supplier's proposal. Per ITS policy, the ITS contract number shall appear on all correspondence relating to the contract. Invoices for T/M must be mailed to the State Agency placing the call. The ITS contract number and the requesting Agency's PO number shall appear on all invoices. Agencies may issue an annual PO that will cover that agency's repair tickets.

3.15 Access to Equipment

Supplier shall have reasonable and free access to the equipment for purposes of performing the maintenance services hereunder. All non-emergency service, including preventative maintenance, must be scheduled with the State agency where the service will be performed. Suppliers may be escorted when maintenance service requires them to be in secure areas.

3.16 Confidential Data

Supplier must be aware that State of Utah data is confidential. There will be times that certified personnel must interact with agencies and their data (electronic, written, verbal,

etc.). Supplier and certified personnel must hold all data, obtained by accident, design, or in the course of completing the necessary work, in strictest confidence. Supplier and/or its certified personnel must not release or disclose in whole or in part any State of Utah data. All personnel must complete and sign a Confidential Data Statement (provided by State of Utah at time of contract signing) prior to providing service under this contract.

Example:

Confidential Data Statement

I understand that any data or information obtained by accident, design, or as part of normal work environment is considered strictly confidential. I hereby certify that all information or data of the State of Utah is considered confidential and as such cannot be released, disclosed, or discussed in any manner.

Please Print Name

Signature

Date

Company Name

Supervisor Signature

Date

3.17 Access To Secure Facilities

Supplier must be aware that many State facilities are secure. In all instances the process to obtain the photo ID badge includes a background check. The Supplier will provide a background check and a photo ID badge for all certified personnel. Certified personnel that are designated to work on this contract must pass the background check or access will be limited and in some cases denied.

Section 4. Service Requirements

This section describes the specific needs and requirements determined necessary by the RFP. Checklists 3 through 8 are used to record responses. Proposing Suppliers will be evaluated on their responses.

4.1 Hardware Maintenance

The State will not pay for maintenance at the board or component level. Maintenance will be charged at the “base level” for all devices (personal computers and printers). The State will not supply an inventory of boards or accessories that are inside the base units. Whatever is inside or attached to the base per the list below is included in the maintenance charge. Printers and monitors are not included with the base and will be listed and charged separately. To clarify, the following examples are items, which may be included within or attached to a device that will be treated as non-peripheral, and considered as part of the base unit:

Personal Computer Items:

- Extended or enhanced graphics cards
- Hard drives
- Memory
- Math coprocessors
- Internal modems
- Internal Tape Drives
- Flex Drives
- Network Cards
- Mouse, Trackball, Touch Pad, etc.
- Keyboard
- Internal CD ROM, CDRW, DVD, DVDW
- Internal Zip Drives
- External Cables (will be covered with the output device)

Printer Items:

- Cables (will be covered with the output device)
- Printer accessories
- Any feeders, stackers, cables, or sorters, etc. will be covered with the output device to which it is attached.
- Consumable items are not included.

The previous examples and all other boards, accessories, options, or attachments will be treated as part of the base unit unless designated as separate devices in the State’s inventory system. In the past, monitors were included in the base price. However,

experience has shown that monitors are moved to accommodate changing needs. Therefore, monitors, port replicators, convenience bases, additional add packs, etc. will be entered separately in EIS and may have separate maintenance charges associated with them. Although this contract is written for onsite maintenance, if customer agrees, repaired or replacement monitors and keyboards may be shipped to the customer.

4.2 Loaner Equipment

This RFP is primarily designed for on-site hardware maintenance. However, there may be times when it becomes necessary for a device to be removed from the site for repair to be completed. Under no circumstance should a State agency be made idle or non-productive due to maintenance service. Therefore, Supplier should provide loaner equipment while original device is being repaired (State agency may waive this requirement if productivity impact is low). Loaner equipment should not be installed at a State site for more than thirty (30) days; appropriate ITS personnel will negotiate a resolution with Supplier if loaner equipment is required longer than 30 days. Removal of laptops from a State Agency should be negotiated between customer and Supplier since loaner equipment cannot be provided on laptops. Original equipment removed from site for repair must be returned or a replacement, of the same brand and type, must be installed when original cannot be repaired. Supplier may recommend a replacement with a different Brand or Model (equivalent or better). This may be negotiated and accepted or rejected by the Agency owning the equipment.

4.3 Parts Availability

4.3.1 Spare Parts

- A. Local Spare Parts Inventory: Shall include all parts necessary to maintain the equipment within the standards of this RFP. Suppliers should indicate on Checklist 4-On-site visits/spare parts inventory the method used to locate parts not available, to replenish used parts, and to determine what percentage of spare parts are maintained in inventory.

Equipment on 24-hour coverage must have parts available immediately. Equipment covered during PPM must have parts within four (4) hours along the Wasatch Front and within eight (8) hours outside the Wasatch Front.

Equipment identified as critical must have parts available in two (2) hours in the Wasatch Front and travel time plus two (2) hours outside the Wasatch Front.

- B. Backup Spare Parts Inventory: Supplier shall also maintain a backup inventory of spare parts that can be delivered to the State within one (1) working day if the spare is not available in the local inventory.

4.3.2 Level of Parts Replacement

The level of replacement for worn or defective parts shall be consistent with OEM design of the equipment. Supplier will not try to repair faulty modules on-site if the equipment was designed for the replacement of modules. Supplier will be responsible for repair or replacement of all faulty parts of the equipment including, but not limited to, cables, cabinets, power supply, tape and disk drives, cards, etc. Replaced parts become the property of Supplier. Replacement parts that are installed by Supplier become the property of the State. Replacement parts must be the same release, revision, capacity, or better and be compatible with the original components.

4.3.2 Quality of Parts

Supplier will use only new OEM parts or parts of equal performance, capacity, and quality in making repairs. Quality of parts provided by Supplier is subject to the State's periodic inspection and review. Used parts should be properly tested prior to installing the part at the users site. In no case shall Supplier use any replacement parts in repairing equipment that would result in the OEM refusing to support the equipment. Supplier must replace faulty used parts with new OEM parts when the same problem arises within sixty (60) days of the previous repair.

4.4 Supplier Guarantee

Supplier should guarantee all maintenance service for a minimum of thirty (30) days beyond the date of service. In the event the equipment becomes inoperable within thirty (30) days and is no longer covered under monthly maintenance, appropriate ITS personnel will evaluate each incident on a case-by-case basis and apportion costs fairly and equitably to the parties involved. The decision of ITS will be binding to all parties of the contract.

4.5 Critical Coverage

Critical coverage may be defined on any covered equipment. Any device defined as critical indicates the customer's requirement for immediate service. The Supplier is required to escalate the priority level of a critical device. The Supplier is responsible for stocking replacement parts for immediate service for the type, brand and model number of devices designated as critical. The customer may request a meeting with the Supplier to outline their critical needs. Any such meetings or inventory processes will be done at no additional charge. The Supplier should respond with their plans for meeting the State's need for devices with critical coverage.

4.6 Price Quotes

Supplier should provide maintenance price quotes to appropriate ITS personnel by fax, (801) 538-3622, within five (5) working days of the request.

Price quotes should only be given to appropriate ITS personnel. Price quotes are required to remain consistent with comparable units of equipment.

Supplier should review the model descriptions in the published price list and notify ITS of any inaccuracies. If the equipment description on the monthly equipment list is incorrect, Supplier should notify ITS in writing. The maintenance price will be renegotiated using the correct equipment description.

4.7 Supplier Relationships

In performing the tasks required by this RFP, Supplier will strive to efficiently and effectively cooperate with other Suppliers and State personnel. Suppliers, State agencies, and ITS will work closely to resolve problems. ITS should be involved in all Supplier relationship disputes.

If the Supplier incorrectly diagnoses the malfunction as not related to the equipment maintained by the Supplier and it is then determined it was, the Supplier should pay for any services and parts billed to the State.

In the event that a service call is made to the Supplier and the Supplier determines the problem should be assigned to another source, the Supplier will contact the ITS Customer Support to have the call reassigned. The Supplier agrees to be available by telephone upon arrival of the appropriate source to describe the problem and their attempted solutions.

4.8 Contract Exclusions

The following are not included in maintenance service:

- Repairing damage to equipment caused by accident, transportation, neglect, abuse or misuse, disaster, which shall include, but is not limited to, acts of nature including fire, flood, wind, water, hail, and/or lightning.
- Furnishing supplies or accessories, painting, refinishing, or refurbishing the equipment.
- Electrical work external to the equipment.
- Preparing the site and maintaining a proper environment.
- Setting up and installing new equipment.
- Relocating equipment.
- Adding, changing or removing features, options, or components making other functional changes to equipment other than as specified by OEM. Upgrading equipment; however, upgrades requested as a result of a service call (example: hard drive fails and customer wants replaced with larger drive) may be included with the customer paying any additional expense.
- Consumable items (such as toner, paper, maintenance kits, and so forth)
- Warranty Service.
- Eradication of software viruses.
- Software problems.

4.9 Maintaining Information on Service calls

Supplier will maintain information on maintenance service for each call and document using REMEDY or other ITS designated system. All applicable fields must be completed. The Progress log is the appropriate location for explanations of repairs. The solution description is the location for comments on calls being closed

4.10 Downtime

Depending on the location of the equipment and the critical nature of its use, agencies have varying requirements for the acceptable amount of downtime on a device. Downtime begins when a service call is initiated, ends when a service call is closed, and consists of the time required to dispatch an engineer, travel to the site, and repair the device. Supplier should use the following table for tolerable downtime per call:

TOLERABLE DOWNTIME PER CALL

COVERAGE TYPE	WASATCH FRONT	OUTSIDE WASATCH FRONT
Regular Service	4 hours	8 hours
Critical Service	2 hours	2 hours plus travel time

ITS reserves the right to monitor downtime hours. **Continuous and excessive downtime hours exceeding the tolerable amount may result in loss of contract.**

Equipment covered under maintenance takes priority over T/M calls. Supplier agrees to meet specified downtime requirements for covered equipment and provide next day service for standard T/M calls. Priority T/M calls cannot be taken if covered maintenance calls have not been serviced.

4.11 Time and Materials Charges

Some agencies would like T/M coverage rather than monthly maintenance coverage. When the service call is placed, the ITS Customer Support will notify the agency if the equipment is on T/M and obtain purchase order number or authorization prior to dispatching service call. If the T/M charge is estimated over \$300, Supplier agrees to notify the customer of the projected charge. The customer is to provide the Supplier with the appropriate authorization or this repair is unauthorized and the Supplier will be responsible for repair costs.

4.11.1 Authorized Billing and Payment: Supplier agrees that authorization for T/M service must be made by the State agency requiring such service. Supplier agrees to bill State agencies directly for these services. Payment will be made directly to the Supplier by each State agency.

4.11.2 Timely Billing of Charges: Supplier is required to provide timely billing no later than sixty (60) days following service. The State's fiscal year begins July 1 and ends June 30. In order for Supplier to receive payment of all T/M calls, all charges for work completed in the fiscal year must be submitted to the appropriate agency by June 30 of current fiscal year. Failure to do so may result in forfeiture of payment.

4.11.3 Quality Assurance: Supplier should respond with the corporate policy regarding quality of workmanship (including parts and labor) and define the time period a replacement part is guaranteed. When quality of workmanship is not acceptable, faulty equipment shall be repaired at no additional charge.

4.12 Escalation Procedures

Appropriate ITS personnel will notify Supplier of any service calls open over three (3) working days. Supplier agrees to provide explanation for extended downtime and record explanation in REMEDY or other ITS designated system.

If it becomes apparent that Supplier is unable to repair the device, the following must occur:

- The Supplier must coordinate with OEM to repair the device and be responsible for all charges associated with the repair, or
- The Supplier must replace the non-operational device with one of equal or greater value and functionality.

If Supplier is unable to determine a solution to repair or replace equipment by the fourth working day, maintenance may be obtained from an outside source (including OEM) and charged to the Supplier. The State agrees to notify Supplier by telephone that an outside source is being requested prior to the outside source being contacted.

When the appropriate ITS personnel is notified of any problems between a customer and the Supplier, they will immediately contact the account manager (see 4.21). The Supplier must provide an escalation list and procedures. If the account manager is unavailable for more than two (2) consecutive days, the appropriate ITS personnel must be notified immediately of a designated individual to contact. If the account manager or the account manager's supervisor is changed, the appropriate ITS personnel must receive written notification no later than five (5) working days following the modification.

4.13 Environment Certification

Supplier agrees to notify ITS and customer of any environments throughout the State not suitable for normal equipment operation and maintenance.

4.14 Warranty Maintenance

Warranty calls are excluded from the procedures as outlined in this RFP. However, when an OEM, or certified warranty provider (as per statewide PC Stores contracts) is awarded, all or a portion of this contract, warranty calls may be electronically dispatched to Supplier through the State's system.

4.15 Preventative Maintenance (PM)

Preventative Maintenance shall be scheduled and performed on a mutually agreeable basis between Supplier and State agency. The service should not interfere with the State's normal operation.

The preventative maintenance must be equal to that as specified by the OEM for equipment covered in these contracts. The frequency, duration, and quality of preventative maintenance shall be equal to that provided by the OEM, as specified in the users manual, for the same equipment. Additionally, agencies may request preventative maintenance as deemed necessary. Supplier must respond to any PM requests dispatched through the State's system. There should be no additional charge for preventative maintenance except:

- PM's requested for off hours i.e., other than the selected coverage period (5 day 8 hours, 24 hours, etc.).
- Procedures that are listed in the Users Guide as customer responsibility are not considered preventative maintenance. A customer may request those procedures. However, the Supplier may choose to bill at the listed hourly time rate with customer approval of service.

4.16 Hours of Coverage

The standard working hours for State agencies are from 8:00 a.m. to 5:00 p.m., Monday through Friday except holidays. Supplier is expected to work according to the above standard working hours. Supplier must provide adequate coverage on Supplier holidays different from State holidays (for example, the day after Thanksgiving). For devices with 24-hour coverage Supplier must respond, within the time frame listed below, on State holidays. Most agencies require maintenance coverage during standard working hours and this is defined the principle period of maintenance (PPM).

Additionally some devices will require extended hours of coverage. Supplier must be able to provide extended coverage that includes responding with the 30-minute callback, having certified personnel on-site, and repairing the device within the time frame of the agency's selected coverage.

COVERAGE HOURS	TERMINOLOGY	EXPLANATION
8:00 a.m. to 5:00 p.m.	Standard coverage (PPM)	5 days, 8 hours
8:00 a.m. to 8:00 p.m.	Primary Coverage	5 days, 12 hours

8:00 a.m. to midnight	Secondary Coverage	5 days, 16 hours
Twenty-four hours	Total Coverage	7 days, 24 hours

Supplier should know that many options are offered such as, 6 day 8 hour, 7 day 12 hour, Etc. In addition, Critical Coverage designation may be added to any of the alternatives. This does not directly effect the hours of coverage but impacts the tolerable downtime.

4.17 Work to Completion

Supplier agrees to provide continuous on-site repair service until the system/subsystem is operational at no additional cost to the State as long as Supplier was on-site during the coverage hours designated in the State's system. An authorized State agency representative may waive this requirement when security problems arise or when repair of the equipment is not critical.

4.18 Maintenance Alternatives (Depot, Mail-in, Carry-in)

Some agencies have expressed interest in maintenance alternatives other than on-site maintenance. Depot, mail-in, and carry-in are examples of alternatives that may be offered.

The facilities of any Supplier offering carry-in service must meet the requirements of the Americans with Disabilities Act (ADA).

4.19 Parts Exchange

Some agencies have expressed interest in exchanging non-working parts or boards for working, new, or refurbished parts or boards of comparable value. Supplier should indicate if that service is available.

4.20 Account Manager

Supplier must identify one (1) person as the Contract Account Manager with regard to contractual matters including: quotes, payment and billing, and all other pertinent contract matters. Supplier must also provide one (1) person as Operational Account Manager who is responsible for performance and all work related issues. The Contract Account Manager and Operational Account Manager may be the same individual. Supplier is responsible for informing appropriate ITS personnel within five working days when any changes occur.

Section 5. Proposal Preparation

One of the objectives of this RFP is to make the proposal preparation process easy and efficient for all interested Suppliers, giving them ample opportunity to highlight their products, services, technical abilities, financial strength, and organizational structure. However, the evaluation process must also be manageable and efficient.

Supplier may include any additional information not requested which Supplier believes may be of interest to the committee. This may include written text, brochures, third party evaluations, etc. It would also be appropriate to express the Supplier's philosophy for doing business, to indicate their current market position, and to identify their future direction.

In the event that a Supplier believes that the State's requirements can be met in a way not included in this RFP, Supplier should note the specifics in an alternate proposal, which the State reserves the right to consider.

5.1 Proposal Presentation Format

In order to be considered "responsive" to this RFP, proposals must be organized into the sections described below. A set of tabs appropriately labeled must be inserted at the front of each section to facilitate quick reference and to identify each part of the proposal.

1. Supplier's name and the RFP number should appear at top of each page.
2. Pages should be numbered consecutively at the bottom of each page.
3. All requested documentation should be placed directly behind the checklist to which it relates.
4. Outline
 - A. Cover Letter
 - B. Table of Contents
 - C. General Information
 - D. Checklists (with required documentation directly behind each one)
 - Checklist 1 – Mandatory Terms and Conditions
 - Checklist 2 – Equipment List
 - Checklist 2A – Hours of Coverage/Time and Materials/Maintenance Alternatives
 - Checklist 3 – Service Requirements
 - Checklist 4 – On-site Visits/Parts Inventory
 - Checklist 5 – Technical Staffing
 - Checklist 6 – Escalation Procedures
 - Checklist 7 – Customer Reference Questionnaire
 - Checklist 8 – Supplier Stability
 - E. Added Value

5.2 Cover Letter

Supplier should clearly indicate the intent to bid and define which types or brands of equipment Supplier is interested in maintaining.

5.3 Table of Contents

Supplier should clearly outline the content of proposal with a Table of Contents identifying each section and the pages on which the information is contained in the proposal.

5.4 General Information

This is the section where the Supplier may include any information not requested in the body of the RFP that may be of interest to the evaluation committee. However, if this information is, in fact, requested in the RFP, Supplier must restate or supply additional copy of said information in appropriate section. This section may be no larger than 10 pages.

5.5 Checklists

ITS has determined that the most efficient way to collect the data required and ease the evaluation process is to include checklists for the Supplier to complete. These checklists are organized for each area that requires a significant response. If additional information is requested, explanation is required, or documentation is necessary, it must be placed directly following the relevant checklist. Each checklist must be completed in its entirety and all requested attachments located directly behind said checklists to be considered “responsive” to this RFP.

Checklist 1 – Mandatory Terms and Conditions

- a. It is recommended that Supplier thoroughly review Section 3. Mandatory Terms and Conditions before completing this checklist. A no response with failure to provide justification will result in the proposal being unacceptable.

Suppliers should be aware that choosing to disagree with a mandatory requirement may result in the proposal being considered “unacceptable,” and no further evaluation would occur unless the evaluation team makes an exception based on accompanying documentation.

- b. Indicate response by placing a “Y” for yes or an “N” for no in the appropriate area.
- c. If “N” is indicated, include documentation or justification directly behind checklist.

Checklist 2 – Equipment List

- a. Identify monthly unit price for on-site monthly maintenance for each model number. (Cost per single unit, per month for maintenance, for each model number). Models numbers are listed with the quantity indicated in each county. This is for proposing purposes only and not to be construed as a guarantee to purchase any amount.

The Wasatch Front is defined as the fifty-mile radius around Salt Lake City, including Willard to the north, Kamas to the east, Grantsville to the west, and Spanish Fork to the south.

All units listed as file servers in the description should be quoted as file servers. This is for proposing purposes only and any model listed in this checklist may be added in the contract as a file server.

- b. If an item is no bid, indicate, “NB” in the unit price column.
- c. All pages of Checklist 2 – Equipment List must be included in proposal even if there are pages of no bids.
- d. If Supplier selects only certain model numbers (rather than brand or type) of equipment on which to bid, that information will be analyzed thoroughly.

Checklist 2A – Hours of Coverage/Time and Materials/Maintenance Alternatives

- a. Supplier must answer each section of the questionnaire.
- b. Specify the price for extended coverage as a percentage of unit price (100%, 105%, etc.) for on-site monthly maintenance.
- c. Complete Section B. T/M Charges – specify the per hour rate for T/M coverage.
- d. Identify the discounted price for maintenance alternatives as a percentage of unit price (25%, 50%, 75%, etc.)
- e. Identify any additional cost for critical coverage as a percentage over/under the unit price (less 10%, additional 10%, no charge, etc.)

Checklist 3 – Service Requirements

- a. Supplier must decide whether to disagree, partially agree, agree, or exceed each requirement by placing an “X” on the proper line.
- b. Supplier must provide additional information describing the level of service they are willing to provide for all choices other than “agree”. Attach additional pages clearly identifying the topic being further explained.

Checklist 4 – On-site Visits/Parts Inventory

- a. The ability of the Supplier to provide timely maintenance service depends in large part upon the availability of parts.
- b. This checklist will be used for evaluation purposes and also for on-site visits.

Checklist 5 – Technical Staffing

- a. The ability of a Supplier to perform computer maintenance in a timely and cost effective manner is dependent on the technical resources that the Supplier can bring to bear on a specific problem.
- b. Supplier must complete one (1) checklist for each certified personnel who will provide service to the State under this contract. A resume is not sufficient!

Checklist 6 – Escalation Procedures

- a. Supplier must respond to each question and attach the following items directly behind the checklist:
 - 1. Organization Chart
 - 2. Escalation Contact List
 - 3. Internal Policy defining maximum tolerable downtime
 - 4. Corporate policy when parts are unavailable within 24 hours
 - 5. List of backup technical resources

Checklist 7 – Customer Reference Questionnaire

One of the methods the State will use to determine the quality of service and the level of ability a prospective Supplier is currently providing is to contact current customers and to speak with the references.

- a. Supplier must provide at least five (5) references. Each reference should identify which devices are currently being maintained for this reference.

- b. The State is aware that previous contractors of the State can handle a contract the scope and size of the State; however, if Supplier chooses to use a State agency or entity as a reference, only one (1) reference can be from the State.
- c. One reference must be the size and scope of this contract
- d. Two references must be located in Utah.
- e. Two must be totally relevant to the equipment bid.
- f. If the State is unable to contact a reference (whether it be due to incomplete or inaccurate information, or unavailability of the reference), the Supplier will forfeit the possible points for that particular reference. Points will be based on reference response to a telephone questionnaire.

Checklist 8 – Supplier Stability

- a. Supplier must complete all questions on Checklist 8.
- b. Supplier should attach a current financial statement or annual report directly behind the checklist. If the items will not fit in the proposal, indicate at the bottom of the checklist where they may be found (in a folder accompanying the proposal, etc.)

5.6 Added Value

Information that your organization considers added value should include additional aspects or benefits for the State that has not been otherwise addressed within this RFP.

Section 6. Proposal Evaluation Process and Criteria

Introduction

The evaluation will be conducted by a team of information technology and/or purchasing professionals. The process will consist of three (3) phases: Initial Screening, Detailed Evaluation, and Final Evaluation.

Phase 1: Initial Screening

The initial screening identifies proposals that are considered “potentially acceptable” as stated in this RFP. To be considered, proposals must follow preparation instructions as outlined in Section 5 – Proposal Preparation Instructions. Any proposal not fulfilling these requirements will be deemed “unacceptable,” and no further evaluation will occur. Proposals passing the initial screening and deemed “potentially acceptable” will be considered during detailed evaluations.

Phase 2: Detailed Evaluation

Only those proposals which have passed Phase 1: Initial Screening will be considered during Phase 2: Detailed Evaluation. The purpose of the Detailed Evaluation is to identify proposals that best meet the needs of the State. At this time, quality evaluation will be conducted. This will include responses to desirable evaluation criteria, reference checking, staffing, stability, and financial analysis of Supplier. Pricing evaluation will also occur at this time.

Scoring will be on a predetermined weighted value. These are shown in relative order of importance:

- Mandatory Terms and Conditions
- Pricing
- Hours of Coverage/Time and Materials/Maintenance Alternatives
- Service Requirements
- On-site Visits/Parts Inventory
- Technical Staffing
- Escalation Procedures
- Customer Reference Questionnaire
- Supplier Stability Questionnaire

Any Supplier’s proposal that is considered “potentially acceptable” after Phase 2 evaluation may be asked to provide an oral presentation, offer detailed explanation of methodology, and conduct a demonstration.

Phase 3: Final Evaluation

Final evaluations will be conducted on those proposals considered “potentially acceptable” during Phase 2: Detailed Evaluation. The final evaluation process determines which services best fulfill the needs of the State.

Added value information (section 5.6) will be analyzed at this time, and bonus points may be awarded at the discretion of the team. This phase may include oral presentations and demonstrations resulting in subsequent point adjustments based on information provided. Pre-determined weighted values will again be used to calculate scores.

Award

The State will make an award based on the thorough evaluation of all proposals submitted. The State will select a Supplier or a combination of Suppliers to provide computer hardware maintenance services in a manner that optimizes high service levels and low price, provides for efficient and economical contract administration, and is in the best interest of the State. The Supplier receiving the award agrees to accept all equipment awarded to Supplier that resides in the State's system on the contract effective date.

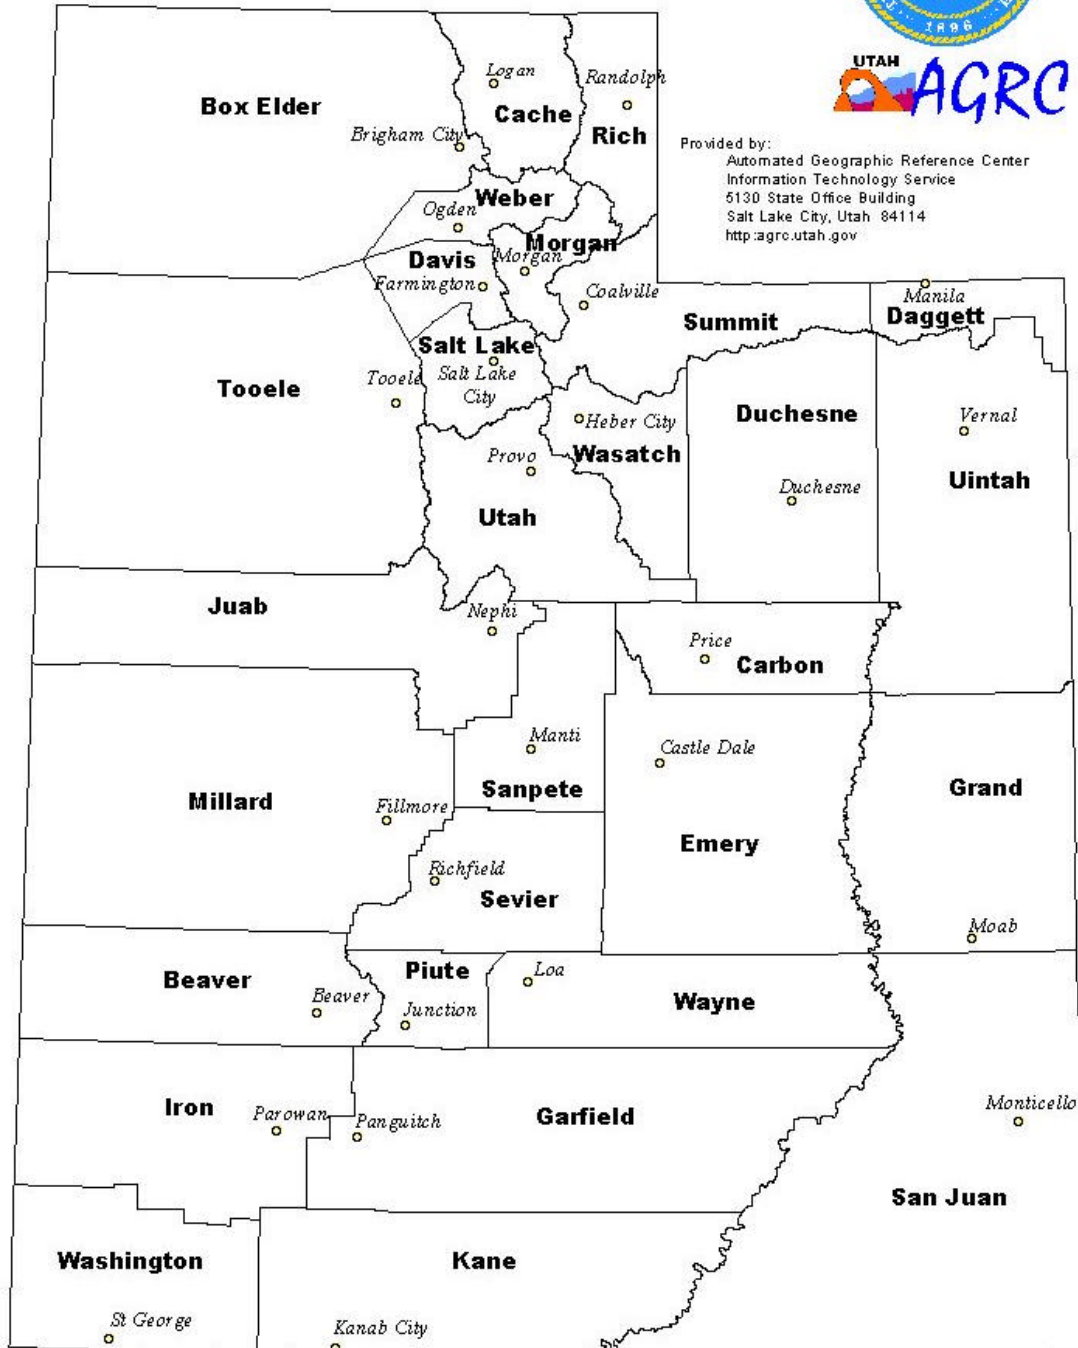

Suppliers should recognize that the State reserves the right to make award(s) or to not award based on any combination or portion of the equipment defined in Checklist 2 (and any equipment added during the contract period), which ever is determined to be in the best interest of the State.

The State reserves the right to inspect Supplier's premises to determine Supplier's ability to meet the requirements of any contract that may be awarded.

APPENDIX B – GLOSSARY

For purposes of this Request for Proposal, the following definitions apply.

<u>TERM</u>	<u>DESCRIPTION</u>
30-Minute Callback	The Telephone call between the certified personnel and the equipment user discussing certified personnel arrival time, urgency of call, description of the problems, and location of the problem. The certified personnel should contact the equipment user within 30 minutes from the time the call was dispatched to supplier.
Certified Personnel	Any individual providing services under this contract including but not limited to field engineers, customer engineers, customer service representatives, etc.
Certification Call	Verification by the Supplier that the equipment is eligible for OEM maintenance and all equipment is at the current OEM revision
Coverage	The kind of maintenance identified for a device that is listed in the Equipment Inventory System (EIS).
Critical	A code used in conjunction with coverage. Critical may be selected on any device with any maintenance coverage. Critical indicates the customer believes this device to be imperative to the operation of their organization. Devices with critical coverage selected take priority and have specific tolerable downtime requirements.
Dispatch Time	The amount of time between the call being received by ITS Customer Support and the Supplier taking responsibility for the call.
Downtime	Downtime begins when a service call is initiated, ends when a service call is closed, and consists of the time required to dispatch a certified personnel (dispatch time), travel to the site (travel-time), and repair the device (repair time).
Equipment	An all-inclusive term that refers to either individual devices or to multiple devices connected to constitute an integrated system. Individual devices are identified by a type and/or model number, such as a central processing unit (CPU), a workstation, a personal computer (PC), and so forth.

Equipment Inventory System (EIS)	The computer program used by ITS and State agencies to track the Statewide computer inventory.
Extended Coverage	Any coverage selected other than principal period of maintenance. See extended period of maintenance.
Extended Period of Maintenance	Options to require maintenance service during a specified extension of the basic principal period of maintenance at a fixed price for such period, regardless of location and number of calls requested during such period.
ITS Customer Support	The group within the Division of Information Technology Services that documents, monitors, and resolves customer service requests
Local Spare Parts Inventory	The inventory of spare parts that is immediately available to be brought with the certified personnel in response to a service call.
Maintenance	Services performed to keep equipment operating at a satisfactory OEM performance level.
Maintenance Documentation	Technical manuals, user manuals, equipment schematics, and applicable micro code listings that are necessary to perform maintenance on the equipment.
Original Equipment Manufacturer (OEM)	The original manufacturer of the equipment, also a manufacturer that sells equipment to a reseller.
Political Subdivision	Any branch of government including colleges, universities, school districts, cities, counties, law enforcement agencies, etc.
Preventative Maintenance (PM)	Maintenance performed by the Supplier that is designed to detect malfunctions in equipment and keep the equipment in proper operating condition and is performed on a schedule basis.
Principle Period of Maintenance	The principle period of maintenance consisting of nine (9) consecutive hours from 8:00 a.m. to 5:00 p.m., Monday through Friday, excluding State holidays. Coverage must be provided during lunch hours.

Remedy	A statewide automated system that agencies are required to use in tracking and reporting hardware maintenance problems.
Travel Time	The amount of time required for the certified personnel to travel from his or her current location to the site of a malfunctioning computer device.
T/M	Time and Materials
Wasatch Front	The fifty-mile radius around Salt Lake City, including Willard to the north, Kamas to the east, Grantsville to the west, and Spanish Fork to the south.

NAME OF SUPPLIER: _____ RFP # _____

CHECKLIST 1
MANDATORY TERMS AND CONDITIONS

ACTION: Suppliers must complete CHECKLIST 1 by placing a “Y” if they agree or an “N” if they disagree on the corresponding lines. Attach additional pages for items of discussion directly behind the checklist. An “N” response must include justification for not agreeing to the specified term and/or condition. Disagreement and failure to provide documentation will result in the proposal being deemed “unacceptable” and eliminated from further consideration. If left blank it will be deemed a “no”.

CHECKLIST 2A
HOURS OF COVERAGE/TIME AND MATERIALS/MAINT. ALTERNATIVES

A. HOURS OF COVERAGE PERCENTAGES

Identify below the price increments as a percentage of the basic monthly maintenance price for extended hours of coverage and for extended days of coverage. For example, coverage on Monday through Friday from 8:00 a.m. to 8:00 p.m., 5 days, 12 hours; could be 110% of the price of standard coverage from 8:00 a.m. to 5:00 p.m. Monday through Friday, 5 days, 8 hours (see below).

8am to 5pm **8am to 8pm** **8am to 12midnight** **24 hours**

Example:

Mon. – Fri.	100%	105%	110%	115%
-------------	------	------	------	------

Mon. – Fri.	_____	_____	_____	_____
-------------	-------	-------	-------	-------

Mon. – Sat.	_____	_____	_____	_____
-------------	-------	-------	-------	-------

Mon. – Sun.	_____	_____	_____	_____
-------------	-------	-------	-------	-------

B. TIME AND MATERIALS CHARGES

These contracts provide for payment for materials and labor performed at an hourly rate.

Please identify the hourly rates below:

Principle Period of Maintenance (8 A.M. – 5 P.M.)

	<u>Standard Service*</u>	<u>Priority Service**</u>
1. On-site		
Labor Hourly Rate	\$_____/hour	\$_____/hour
2. Mail-in/Carry-in		
Labor Hourly Rate	\$_____/hour	\$_____/hour

Extended coverage (if different than principle period of maintenance)

	<u>Standard Service*</u>	<u>Priority Service**</u>
1. On-site		
Labor Hourly Rate	\$_____/hour	\$_____/hour

NAME OF SUPPLIER: _____ RFP # _____

CHECKLIST 2A (cont.)
HOURS OF COVERAGE/TIME AND MATERIALS/MAINT. ALTERNATIVES

2 Mail-in/Carry-in

Labor Hourly Rate \$_____/hour \$_____/hour

* Standard Service: Next Day Service

** Priority Service: Same Day Service

3. If on-site labor hourly rate does not include travel charges, describe method for charging for travel below:

Travel charges Included: yes _____ no _____

Travel charges:

4. Corporate policy regarding quality of workmanship included: yes____ no____

5. The Supplier guarantees the time and materials service for _____ days.

C. MAINTENANCE ALTERNATIVES

Identify below the discounted percentage price as a percentage of the basic monthly unit price for mail-in, carry-in, and depot coverage:

Mail-In _____ % of unit price

Carry-In _____ % of unit price

Depot _____ % of unit price

D. CRITICAL EQUIPMENT

Identify below the increased percentage, if any, of the basic monthly unit price for critical equipment. Critical equipment coverage can be added to any of the four types of coverage.

Percentage increase for critical equipment: _____ %

E. MAIL-IN OR TRANSPORTATION COSTS

Mail-In costs included in price (i.e., UPS, Federal Express, etc...) yes ____ no ____

If no, who is responsible for costs? _____

NAME OF SUPPLIER: _____ RFP # _____

CHECKLIST 3
SERVICE REQUIREMENTS

ACTION: Suppliers must complete checklist 3 by placing an “X” in the appropriate column for each topic. In addition, Suppliers must insert completed “action items” and any other detailed information they may choose to provide in the proposals under *Section IV*.

Service Requirements.

CHECKLIST 4
ON-SITE VISITS/SPARE PARTS INVENTORY

ACTION: This checklist will be used during the on-site visits, discussed during the oral presentations, and scored during the final evaluation phase.

A. LOCAL INVENTORY

1. How do you determine what spare parts are maintained?

2. What determines the quantity of each part in stock?

3. Explain policy for re-evaluating process? _____

4. How will you make certain that parts for devices identified as critical are always available? _____

B. CERTIFIED PERSONNEL INVENTORY

1. What type and quantity of inventory is carried by the on-site personnel?

2. How is this inventory restocked? _____

NAME OF SUPPLIER: _____ RFP # _____

CHECKLIST 4 (cont.)
ON-SITE VISITS/SPARE PARTS INVENTORY

3. Define internal procedure to determine what parts are carried by the certified personnel.

C. PARTS ORDERING

1. How are parts reordered? _____ automatic system _____ manual system
2. Explain the system for reordering parts.

D. LOCATING OUT-OF-STOCK PARTS

1. How are out-of-stock parts located? _____
-
-
-
2. How are out-of-stock parts obtained? _____
-
-
-
3. If more than one location needs the part in question, how are priorities for obtaining parts determined?
-
-
-
4. Out-of-stock parts must be received within 24 hours.
- a. Is this a problem? _____ yes _____ no
 - b. Explain internal policies to make certain this time criteria is met.

NAME OF SUPPLIER: _____ RFP # _____

CHECKLIST 4 (cont.)
ON-SITE VISITS/SPARE PARTS INVENTORY

E. USED/REFURBISHED PARTS

1. When are refurbished parts, installed? _____

2. Explain quality assurance procedure for testing these parts.

3. Is the guarantee on used/refurbished parts different than for new parts for:
 - a. Systems under maintenance contract ____ yes ____ no
if yes, explain: _____

 - b. Systems under time and materials ____ yes ____ no
if yes, explain: _____

F. MONITORING REMEDY OR OTHER ITS DESIGNATED SYSTEM

1. How will the REMEDY or other ITS designated system be monitored for incoming calls to make certain the 30-minute callback is performed?
Include backup procedures and personnel _____

2. How will calls from ITS be received and monitored after hours and on holidays? _____

3. Explain internal procedures to add staff when service demands more coverage.

NAME OF SUPPLIER: _____ RFP # _____

CHECKLIST 5
TECHNICAL STAFFING
Provide one per each Certified Personnel

Complete this page for each certified personnel who is currently employed by you, will be located in Utah, and provide maintenance service under this contract. Resumes are not considered responsive and will NOT be evaluated.

A. Name of certified personnel: _____

1. Total years of experience maintaining computer equipment
(minimum two years): _____

2. Training received from all sources:

DATE

SUPPLIER

COURSE TITLE

3. List all current security clearances you possess: _____

4. Certificates: Yes _____ No _____ If yes, specify Supplier and date of certification.

5. Educational background:

NAME OF SUPPLIER: _____ RFP # _____

CHECKLIST 5 (cont.)
TECHNICAL STAFFING

B. Class(s) and Brand(s) of equipment maintained and for how long:

C. List below at least three references who can provide an indication of the certified personnel's technical background:

	<u>Company Name</u>	<u>Contact Person</u>	<u>Phone Number</u>
1.	_____	_____	_____
2.	_____	_____	_____
3.	_____	_____	_____

NAME OF SUPPLIER: _____ RFP # _____

**CHECKLIST 6
ESCALATION PROCEDURES**

ACTION: Attach all required information immediately following this checklist.

A. ADMINISTRATIVE ESCALATION PROCEDURES

1. Provide an organization chart.
Attached: yes _____ no _____
2. Provide escalation contact list in order of authority.
List must include: name, title, and phone number(s) and pager number.
Attached: yes _____ no _____

B. TECHNICAL ESCALATION PROCEDURES

1. Explain internal policy regarding maximum tolerable downtime including escalation when such downtime is not met. Attached: yes _____ no _____
2. What is the maximum time a certified personnel can be on-site before the problem will be escalated? _____
Explain if necessary: _____

3. Supplier agrees to supply explanation for calls open beyond the State's tolerable downtime with a new target completion date. Agree: yes _____ no _____
4. Define corporate policy when a part is not available within 24 hours. Attached: yes _____ no _____
5. List the backup technical resources available to assist in determining hardware versus software problems. Attached: yes _____ no _____
6. If equipment is not repaired by the fourth working day, maintenance may be obtained from another source and charged to the Supplier.
Agree: yes _____ no _____
7. The Supplier will notify appropriate ITS personnel within two weeks of any changes in its certified personnel.
Agree: yes _____ no _____

NAME OF SUPPLIER: _____ RFP # _____

CHECKLIST 7
CUSTOMER REFERENCE QUESTIONNAIRE

ACTION: Complete this checklist for each customer reference provided. A minimum of five references must be provided. Incomplete or inaccurate information will result in elimination of the reference and/or reduced points.

Name of Customer: _____

Address: _____

City/State/Zip: _____

Contact person: _____

Phone number: _____

Class(s) and Brand(s) of equipment maintained and for how long:

<u>BRAND</u>	<u>CLASS</u>	<u>LENGTH OF CONTRACT</u>
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____

Total number of devices maintained: _____

Please define number and type of geographic locations to which maintenance was provided:

Countries: _____ Counties: _____

States: _____ Cities: _____

Class Legend:

- | | |
|----------------|-------------------------------|
| 1. Disk Drives | 6. Power Equipment |
| 2. Printers | 7. Mini Computers |
| 3. Terminals | 8. Other (scanners, plotters) |
| 4. Tape Drive | 9. High Tech. Workstations |
| 5. File Server | 10. Communication Equipment |

NAME OF SUPPLIER: _____ RFP # _____

CHECKLIST 8
SUPPLIER STABILITY
(Provide one per proposal)

A. PERSONNEL

1. Number of employees:
 - a. Total _____
 - b. In Utah _____
 - c. To be committed to this contract _____
2. Number of certified personnel:
 - a. Total _____
 - b. In Utah _____
 - c. To be dedicated to this contract _____
3. On-going training provided to certified personnel:
 - a. OEM yes _____ no _____
 - b. Equivalent courses yes _____ no _____
 - c. On the job yes _____ no _____
 - d. Other: _____
4. Certified personnel turnover rate for the past year: _____

B. GENERAL INFORMATION

1. Total years in business: _____
2. Total number of customers: _____
3. Number of branch and/or district offices: _____
4. Number of locations in Utah: _____
 - a. Complete address of locations in Utah:

ATTACHMENT A: STANDARD TERMS AND CONDITIONS

1. **AUTHORITY:** Provisions of this contract are pursuant to the authority set forth in 63-56, Utah Code Annotated, 1953, as amended, Utah State Procurement Rules (Utah Administrative Code Section R33), and related statutes which permit the STATE to purchase certain specified services, and other approved purchases for the STATE.
2. **CONTRACT JURISDICTION, CHOICE OF LAW, AND VENUE:** The provisions of this contract shall be governed by the laws of the State of Utah. The parties will submit to the jurisdiction of the courts of the State of Utah for any dispute arising out of this Contract or the breach thereof. Venue shall be in Salt Lake City, in the Third Judicial District Court for Salt Lake County.
3. **LAWS AND REGULATIONS:** Any and all supplies, services and equipment furnished will comply fully with all applicable Federal and State laws and regulations.
4. **RECORDS ADMINISTRATION:** The CONTRACTOR shall maintain, or supervise the maintenance of all records necessary to properly account for the payments made to the CONTRACTOR for costs authorized by this contract. These records shall be retained by the CONTRACTOR for at least four years after the contract terminates, or until all audits initiated within the four years, have been completed, whichever is later. The CONTRACTOR agrees to allow STATE and Federal auditors, and STATE Agency Staff, access to all the records to this contract, for audit and inspection, and monitoring of services. Such access will be during normal business hours, or by appointment.
5. **CONFLICT OF INTEREST:** CONTRACTOR represents that none of its officers or employees are officers or employees of the State of Utah, unless disclosure has been made in accordance with 67-16-8, Utah Code Annotated, 1953, as amended.
6. **CONTRACTOR, AN INDEPENDENT CONTRACTOR:** The CONTRACTOR shall be an independent contractor, and as such, shall have no authorization, express or implied, to bind the STATE to any agreements, settlements, liability, or understanding whatsoever, and agrees not to perform any acts as agent for the STATE, except as herein expressly set forth. Compensation stated herein shall be the total amount payable to the CONTRACTOR by the STATE. The CONTRACTOR shall be responsible for the payment of all income tax and social security amounts due as a result of payments received from the STATE for these contract services. Persons employed by the STATE and acting under the direction of the STATE shall not be deemed to be employees or agents of the CONTRACTOR.
7. **INDEMNITY CLAUSE:** The CONTRACTOR agrees to indemnify, save harmless, and release the STATE OF UTAH, and all its officers, agents, volunteers, and employees from and against any and all loss, damages, injury, liability, suits, and proceedings arising out of the performance of this contract which are caused in whole or in part by the negligence of the CONTRACTOR'S officers, agents, volunteers, or employees, but not for claims arising from the State's sole negligence.
8. **EQUAL OPPORTUNITY CLAUSE:** The CONTRACTOR agrees to abide by the provisions of Title VI and VII of the Civil Rights Act of 1964 (42USC 2000e) which prohibits discrimination against any employee or applicant for employment or any applicant or recipient of services, on the basis of race, religion, color, or national origin; and further agrees to abide by Executive Order No. 11246, as amended, which prohibits discrimination on the basis of sex; 45 CFR 90 which prohibits discrimination on the basis of age; and Section 504 of the Rehabilitation Act of 1973, or the Americans with Disabilities Act of 1990 which prohibits discrimination on the basis of disabilities. Also, the CONTRACTOR agrees to abide by Utah's Executive Order, dated March 17, 1993, which prohibits sexual harassment in the work place.
9. **SEPARABILITY CLAUSE:** A declaration by any court, or any other binding legal source, that any provision of this contract is illegal and void shall not affect the legality and enforceability of any other provision of this contract, unless the provisions are mutually dependent.
10. **RENEGOTIATION OR MODIFICATIONS:** This contract may be amended, modified, or supplemented only by written amendment to the contract, executed by the parties hereto, and attached to the original signed copy of the contract.
11. **DEBARMENT:** The CONTRACTOR certifies that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction (contract), by any governmental department or agency. If the CONTRACTOR cannot certify this statement, attach a written explanation for review by the STATE.
12. **TERMINATION:** Unless otherwise stated in the Special Terms and Conditions, this contract may be terminated, with cause by either party, in advance of the specified termination date, upon written notice being given by the other party. The party in violation will be given ten (10) working days after notification to correct and cease the violations, after which the contract may be terminated for cause. This contract may be terminated without cause, in advance of the specified expiration date, by either party, upon 90 days prior written notice being given the other party. On termination of this contract, all accounts and payments will be processed according to the financial arrangements set forth herein for approved services rendered to date of termination.
13. **SALES TAX EXEMPTION:** The State of Utah's sales and use tax exemption number is E33399. The tangible personal property or services being purchased are being paid from State funds and used in the exercise of that entity's essential functions. If the items being purchased are construction materials, they will be converted into real property by employees of this government entity, unless otherwise stated in the contract.
14. **WARRANTY:** The contractor agrees to warrant and assume responsibility for all products (including hardware, firmware, and/or software products) that it licenses, contracts, or sells to the State of Utah under this contract for a period of one year, unless otherwise specified and mutually agreed upon elsewhere in this contract. The contractor (seller) acknowledges that all warranties granted to the buyer by the Uniform Commercial Code of the State of Utah apply to this contract. Product liability disclaimers and/or warranty disclaimers from the seller are not applicable to this contract unless otherwise specified and mutually agreed upon elsewhere in this contract. In general, the contractor warrants that: (1) the product will do what the salesperson said it would do, (2) the product will live up to all specific claims that the manufacturer makes in their advertisements, (3) the product will be suitable for the ordinary purposes for which such product is used, (4) the product will be suitable for any special purposes that the State has relied on the contractor's skill or judgement to consider when it advised the State about the product, (5) the product has been properly designed and manufactured, and (6) the product is free of significant defects or unusual problems about which the State has not been warned. Remedies available to the State include the following: The contractor will repair or replace (at no charge to the State) the product whose nonconformance is discovered and made known to the contractor in writing. If the repaired and/or replaced product proves to be inadequate, or fails of its essential purpose, the contractor will refund the full amount of any payments that have been made. Nothing in this warranty will be construed to limit any rights or remedies the State of Utah may otherwise have under this contract.
15. **PUBLIC INFORMATION:** Contractor agrees that the contract will be a public document, as to distribution of copies, and Contractor gives the STATE express permission to make copies of the contract and/or of the response to the solicitation in accordance with the State of Utah Government Records Access and Management Act. The permission to make copies as noted will take precedence over any statements of confidentiality, proprietary information, copyright information, or similar notation.
